## Chapter of Accidents.

One Day's Evidence of the Uncertainty of Life.

## A SERIOUS RAILROAD WRECK.

Twelve Persons Injured, Two Fatally, by an Accident on the Northern Pacific Road—A Broken Brake Causes a Wreck on an Electric Street Car at Joliet, Illinois—Three Men Hurled to Death from a Falling Scaffold—A Vessel Lost With All on Board—Other Casualties.

HOT SPRINGS, Wash., Sept. 3.—A terrible accident occurred last night four miles from Eagle Gorge, about sixty miles from Tacoma, on the Northern Pacific railway. The eastbound passenger train No. 2 was wrecked. The tender of the second engine, mail, express, and baggage cars, smoker, emigrant and two day coaches were thrown from the track. Twelve persons were injured, two fatally—Ben. Young, umpire of the Northwest league, and a man named Keppler.

The names of those injured are: E. W. Healy and wife, of Tracy, Minn.; Mrs. Dr. A. H. Fowler, of Holyoke, Mass.; V. G. Frost, of Ellensburg; E. T. Furness, of Tacoma; Judd Randall, of Glenview, Minn.; George Bronsky, of Spokane Falls; R. S. Campbell, of Oregon; E. W. Jacobs, cook on the dining car; G. H. Woison, one of a party of tourists, and George E. Purple, of Edgemoor, Mich.

## Broken Brake on an Electric Car.

JOLIET, Ill., Sept. 3.—Yesterday an electric street car became uncoupled and sped down hill at a terrific speed. The car was crowded with men, women and children who were going out to the grounds where the labor demonstration was held. Many leaped off and a number were severely hurt, but it is thought none fatally.

Those severely hurt are: Miss Josie Caul, ugly cuts and bruises on head, neck and back; Mary Caul, serious injuries on arms, body and legs; Mrs. Henry Beck, internal injuries and contusion on shoulder and sides; August Bischman, wrist and arm badly sprained and head cut; H. B. Clark, wrist and shoulder hurt. Others were badly scratched.

Mrs. Beck had her baby in her arms when she jumped off, but the child was not hurt. The two Caul sisters are the most seriously hurt. The curve where the car ran off is but one street back of the bluff. Had the car not stopped by crashing into the gutter and upon the sidewalk it might have gone over the bluff and killed all on board. The street car officials say a broken brake was the cause of the accident.

## Sextuple Drowning.

SAN DIEGO, Cal., Sept. 3.—The sloop Petrel, commanded by Capt. William H. Hoy, a well known shipping man, capsized just outside the harbor yesterday. No one saw the accident. A sharp wind was blowing and it is supposed the sloop was overturned suddenly. It was found by some returning fishermen who also saw the bodies of two women floating near it. They tried to secure the bodies but were unable to do so owing to the high sea.

They came to the city and gave the alarm and a large fleet of boats went out to search for the bodies but without success. There were six persons in the yacht all of whom were undoubtedly drowned. The occupants were Capt. and Mrs. Hoy, Miss Wallace, a daughter of a Presbyterian minister of this city, and a lady and two children whose names are unknown. It is believed the bodies have all been carried out to sea by the tide.

## Six Persons Drowned.

SAN FRANCISCO, Sept. 3.—The sloop yacht Petrel, Capt. William P. Hay, was capsized just outside the harbor yesterday, and six persons who were on board are all supposed to have been drowned. They were Capt. and Mrs. Hoy, Miss Wallace, the daughter of a Presbyterian clergyman of this city, and a lady and her two children, whose names are unknown. The bodies of two of the women were seen by some fishermen floating near the capsized yacht, but owing to the high seas they were unable to get near them. The bodies of the others are supposed to have been carried out to sea by the tide.

## Wild Engine on the Rampage.

NEW CASTLE, Ind., Sept. 3.—A wild engine and a car swept through this city yesterday on the Lake Erie and Western road. The engineer had reversed the lever and jumped from the engine near here to avoid a collision with the morning passenger train on the Pan-Handle at the junction north of this city. What might have been a terrible accident was averted by the car jumping the track and bringing the engine to a standstill only five minutes before the northbound Lake Erie and Western passenger came along.

## The Scaffold Fell.

NEW ORLEANS, Sept. 3.—Shortly before noon yesterday a scaffolding in the large building at the corner of Canal and Dauphin streets fell with a crash from the third story to the cellar. William Harvey, a carpenter, was instantly killed; two painters named Henry Albright and William Ray were fatally injured. Several others employed in the building were seriously hurt.

## The Bus Overturned.

FONDULAC, Wis., Sept. 3.—A party of Fondulac young people had a picnic at the ledge east of this city Sunday. They were returning about 7 o'clock when the driver lost control of the horses and they ran down a very steep

hill. The omnibus was overturned and wrecked. The injured were: Miss Carrie Abel, head badly cut and body bruised; Miss Rose Abel, wrist sprained; Miss Minnie Hamburger, leg and arm wrenched and seriously bruised; Charles Kayser, wrist and ankle dislocated.

## Carpenters' Scaffold Falls.

NEWARK, N. J., Sept. 3.—A swinging scaffold on a building in course of construction on Clarendon avenue fell yesterday precipitating four carpenters, who occupied it, a distance of thirty-five feet to the ground. Theodore Braud and another man, Matthews, were killed and the others were badly injured. It is claimed that the ropes supporting the scaffold were rotten. The coroner will investigate.

## Accident to a Passenger Train.

ST. PAUL, Minn., Sept. 3.—The Northern Pacific railroad officials late last night got word of an accident to the passenger train which left Tacoma yesterday afternoon. When four miles east of Eagle Gorge, about sixty miles from Tacoma, the train struck a broken rail, derailing the tank of the engine and several coaches. Several passengers were injured, but late last night no names had been received.

## Steamer Floundered.

LONDON, Sept. 3.—The British steamer Portuense, Capt. Hews, from New York, Aug. 17, for Para and Macao, has floundered near Anegada island, British West Indies. Nineteen of her crew are known to have been saved. The captain, first and third officers, chief engineer, two stewards, boatswain, carpenter and a fireman and a seaman are missing.

## Thirteen Lives Lost.

LONDON, Sept. 3.—A sad accident occurred to-day at Lipsitz, whereby thirteen lives were lost. While workmen were completing the roof of a new ice store house for the Ulrich brewery the structure collapsed, and the men were buried in the ruins. In addition to the thirteen killed many were injured, twelve seriously.

## Gas Explosion.

SEATTLE, Wash., Sept. 3.—An explosion of gas occurred in the Diller hotel last night. Several persons were injured, among whom was Dr. Otis F. Presbury, of Washington, D. C., editor of Public Opinion, who had his face and hands badly burned.

## A Carpenter's Fall.

ATTICA, Ind., Sept. 3.—F. M. Kelly, a carpenter, 55 years old, fell from Brant's ware house at this place yesterday. He won't recover.

## DRANK ACONITE.

One Woman Dies and Another Narrowly Escapes Death.

NEW YORK, Sept. 3.—Mrs. Fritz Arbes, who lived with her daughter, Mrs. Catharine Zadick, at No. 311 East Fifth street, died in terrible agony yesterday afternoon, after having drunk a quarter of an ounce of medicine put up by Druggist Albert Kirchman. Dr. Lesser, of East Fifteenth street, who had been called in to treat the infant child of Mrs. Zadick for gastric trouble, prescribed a minimum dose of which was aconite. The medicine was put up in a bottle bearing a German label.

Mrs. Arbes, who was also unwell, concluded to try the medicine. This she did with the above result. Mrs. Zadick, too, tasted the drug. Dr. S. Gruener, who was hurriedly sent for, arrived too late to aid Mrs. Arbes, and only succeeded in saving the life of Mrs. Zadick by the use of powerful antidotes. Coroner Levy investigated the case and decided that there was nothing upon which to hold Dr. Lesser.

## Two Games of Base Ball.

BOSTON, Sept. 3.—At yesterday afternoon's game of base ball here between the Boston and Chicago clubs the regular umpire failed to appear in time for the first game, and Nagle of the Chicago's was selected. After the first half of the first inning had been played Fessenden, the regular official, arrived. The Bostonians insisted on Fessenden relieving Nagle, but Chicago objected, and Nagle gave the Bostonians notice that he would forfeit the game to Chicago unless the game was proceeded with. The Bostonians refused, and Nagle decided the game forfeited to Chicago 9 to 0. Fessenden in the meantime had called upon the Chicago's to proceed, under penalty of forfeiture, and as they also refused, he gave the game to Boston 9 to 0.

## Arrested for Perjury.

BATH, N. Y., Sept. 3.—A great sensation has been created by the arrest on the charge of perjury of J. B. Sebring, a well known Democratic politician and able lawyer, of Hammondsport. Sebring was the Democratic candidate for district attorney of Steuben county last fall. The charge of perjury is made in connection with his professional duties. Examination was waived and Sebring was held for the grand jury. Other irregularities are said to have been discovered in his practice in the county.

## Coal Train Wrecked.

SCRANTON, Pa., Sept. 3.—A coal train on the New York, Ontario and Western road ran off the track at Mayville last night. A number of cars crashed into a small hotel standing close to the track, completely wrecked the building and killed William Lyons, who was inside. The tracks will be blocked for many hours. The train men escaped injury by jumping.

They Differ in Religious Matters.  
MINNEAPOLIS, Sept. 3.—A Winnipeg, Man., special to The Tribune says: Icelandic students of Manitoba college at Winnipeg have resigned in a body on account of differences over religious matters with the Presbyterian board of management. They will leave shortly for an educational institution across the boundary line, to complete their education.

## The Central Strike.

State Board of Arbitration Begln Their Work.

## MR. WEBB THE FIRST WITNESS.

He Testifies How He Came to Discharge the Knights of Labor—Only One Witness for the Railroad—Examination of the Discharged Men Begun.

NEW YORK, Sept. 3.—The state board of arbitration begun its investigation here yesterday as to the difficulties existing between the New York Central railroad and the Knights of Labor. The first of the parties interested to appear was Third Vice President Webb. Mr. Webb was accompanied by his private secretary and Messrs. Frank Loomis, Hamilton Humes and D. W. Gears, counsel for the road.

It was nearly 10:30 o'clock when the members of the board entered the court room and informed the counsel that they were ready to proceed with the inquiry. Mr. Webb was the first witness called. Mr. Webb said that he was the third vice president of the New York Central and Hudson River railroad, and had charge of the operation of the road. The company had no controversy with its employees. On the evening of Aug. 3 a large number of the employees left, and their places had been filled.

The alleged cause was that seventy-eight members out of 25,000 had been discharged. They were discharged for good cause, but only seven of these men applied to the company for information as to why they were discharged. Subsequently a gentleman from another state called and wanted to know why the men were discharged. The witness declined to give the reasons. This gentleman was Mr. Holland.

Upon being cross-examined by Gen. Roger Pryor, Mr. Webb said he had nothing to do with the road outside of the transportation and operation departments. Mr. Depew was abroad. The witness had discharged the men on reports from members of the secret service of the company. These reports are not in existence. They conveyed to him the charges and evidence. The charge itself was unsatisfactory service. An engineer named Lee was discharged for unsatisfactory service. The man Lee was very arrogant and insolent, and said he would tie up every wheel between here and Buffalo if he did not get some of the Vanderbilt money.

This ended the testimony for the Central.

William A. Valentine, master workman of Assembly No. 10,569 and one of the discharged employees, was the first witness for the knights. The witness received a written communication from the assistant superintendent which stated that his services would not be required after Aug. 4. Then, in a rambling way the witness told how he had been cautioned not to appear too prominently as a Knight of Labor, as it would interfere with his promotion.

Dennis McCarthy, train baggageman, testified that he was discharged on July 31. On Aug. 1, he asked Mr. Toucey if his discharge was final. Then Mr. Toucey accused him of being one of the "kickers" and a Knight of Labor. The witness appealed to Mr. Toucey to remember his twenty years of faithful service, and the latter revoked the discharge, but when witnessed reported for duty afterwards he was ordered to give up his badge and keys by a subordinate of Mr. Toucey's, and was then discharged.

E. J. Lee, master workman of District No. 246, testified that District No. 246 ordered the strike because the company had violated an agreement with the men in which it was agreed to give the reasons for all discharges. Witness had always performed his duty faithfully and at the time of his discharge was an extra hand and was on leave until he was ready to report for work.

On August 8 Mr. Toucey told the witness that he was an agitator and would not be taken back, but that he would not be blacklisted, and if he could get a situation on the New Haven road he (Toucey) would give him a recommendation.

Charles Malloy, a member of the executive committee of District Assembly No. 246, testified that he was discharged July 29, after eight years employment. He was told it was because he had lied in order to obtain a pass. The charge was false.

J. J. Holland, of the general executive board, described his visit to Mr. Webb made by order of the executive board to endeavor to adjust the troubles between the road and its employees.

Mr. Toucey had said to him (Holland) that Mr. Webb did not know the temper of the men, and intimated that he was acting too hastily. Witness told Toucey that if Mr. Depew was here he believed that the trouble would have never occurred.

John W. Devlin, of the general executive board, described an interview with Mr. Toucey in which he explained the attitude of the knights toward the road, and gave him to understand that if cause were shown for the discharges made the board would uphold the company. The same ground was gone over the same day with Mr. Webb, who refused to make any concessions. At this interview Mr. Powderly, who was present, was strongly impressed with the idea that the company was attacking the organization and requested Mr. Webb to question some of the men discharged. Mr. Webb made no reply.

E. J. Lee, recalled, said he had called Mr. Depew at Paris and received no reply. He had made strong efforts to prevent a strike and had a long correspondence with Mr. Powderly. He identified the correspondence. In the first letter, dated Feb. 3, 1890, Mr. Powderly complimented Lee on his skillful management of District Assembly 246 and advised Lee to "feel his

way carefully," remembering that he is coping with one of the strongest organizations in America, and advises the order to treat the company courteously. Under date of April 17 Mr. Powderly regretted to see that the road was picking off so many knights and advised Lee to do all possible to prevent a strike, which, he said, was what the road wanted. "The order," he wrote, "could not now support a strike; besides, I am informed, Mr. Depew is anxious to have the men strike."

On July 30 Lee wrote Powderly that the road was crowding the knights very hard, evidently trying to force a strike, traffic being dull. He himself had been discharged, and half of the men were anxious to strike.

Aug. 2 Powderly wrote, regretting the condition of affairs, saying that if there was to be trouble it would come in Depew's absence. He still advised avoidance of strike at all hazards, as the order could not support it. "Act on the following suggestion," he wrote. "Select from your men such as are good and reliable and secure places for them in the west. Then have them ask for shorter hours and higher pay. This the road will not grant. Then have them quit and take the new places secured for them. Do this secretly, and wait until Mr. Depew returns. He is a presidential candidate and would not care for a strike on his road."

Again under date of Aug. 6, Mr. Powderly says: "It is madness for the men on the Central to strike, they cannot win." He calls attention to the fact that 1892 will be a presidential year, and in 1893 the world's fair will be held, and for that reason the road wanted the trouble got out of the way at once. In conclusion he says: "We cannot assist you. Workingmen of this age cannot stand assessments. If the strike is inevitable let the men of the New York Central enter it with their eyes open."

Mr. Powderly was called and related his interview with Mr. Webb, but said nothing new. Pending the strike, he said, he had no interview with any of the road's officials.

The board announced that if neither side called Messrs. Voorhees, Bissell, Stevens or Lyons the board would do so to-morrow. Adjourned.

## RETURNING TO WORK.

Some of the Central Strikers are Now in the Employ of the Road.

ALBANY, Sept. 3.—Around the West Albany yard and shops yesterday much interest was manifested among the Knights of Labor men concerning the effect of an invitation issued by the Central company Monday. It read: "Monday being Labor Day the shops will be closed, and those desirous of coming to work for the Central Hudson Railway company will report at their respective shops early on Tuesday morning."

Yesterday morning 300 men, union and non-union, reported for work. Among these were noticed knights who have been guarding the foot bridge ever since the tie-up. About one week ago there were 300 men at work in both the upper and lower depots, and yesterday about 500 men were at work. It is reported that four crews, all Knights of Labor men, went back to work in the yard. Considerable freight was moved yesterday.

## Taking Back Their Old Men.

BUFFALO, Sept. 3.—The New York Central road is taking back some of its old switchmen and discharging new men. It is said that five were reinstated yesterday and that others were received and put to work to-day. Six of the new men who took strikers' places were discharged this morning because of incompetency.

## Probable Shipwreck.

SAN FRANCISCO, Sept. 3.—Capt. Noble, of the ship W. B. Godfrey, reports that he spoke to the bark Henry Buck seventy days from New Castle, N. S. W.; several hundred miles off the New Zealand coast. She was flying signals of distress, and Capt. Miller, of the Buck, signalled that she had been dismantled by a hurricane. He said the crew had been on short rations for several days and begged for supplies.

Capt. Noble attempted to launch a small boat, but she was stove in by the waves. He was therefore unable to render any assistance. The Buck is now out ninety days from New Castle, and nothing more has been heard from her. It is thought she has been lost. She was loaded with coal and carried a big crew.

The quarrel arose over a male trade.

## A Steamer on Fire.

## Notice to the Democrats of Mason County.

There will be a mass convention held at Maysville court house Saturday, Sept. 13th, at two o'clock p. m., for choosing delegates to the Congressional convention which meets at Chateaufort Sept. 16th.

THOS. J. CHENOWETH,  
Chairman Dem. Ex. Com., Mason Co.

If Cincinnati papers will take care of the Queen City's many murderers, they will not have much space to devote to "Kentucky killings."

The Philadelphia Times says that Pattison, the Democratic candidate for Governor of Pennsylvania, will be elected by 50,000. No wonder the Republicans of the Keystone State are scared. Quayism is doomed.

THERE are eight persons in jail at Cincinnati awaiting trial for murder. And all these crimes were committed in one month—August. This is an awful record. Cincinnati should not forget that riot a few years ago.

SENATOR SHERMAN has joined the crowd of "Progressive Protectionists," and wants to fix up a little "reciprocity" with our Canadian neighbors. He has given notice that he will offer an amendment to the McKinley bill that will, if adopted, simply result in tearing down some of the tariff walls between the two countries.

SENATOR DAVIS, of Minnesota, is another Republican who has forgotten that to admit that the price of an article is reduced by the removal of the duty on it is to destroy the whole protection argument. He wants binding twine put on the free list so that it will come cheaper to the farmer. With such "talker talker" as this, what becomes of the once favorite cry of the Republicans that the tariff isn't a tax? Why isn't it a tax, if a removal of the duty on an article will cheapen the price of it to the consumer? Senator Davis is not the only Republican who has changed his cry on this point. The fact of the matter is, Republicans are daily admitting that the Democratic view of this vexed question is the correct one. As the Chicago Times remarks, Senator Davis' sound reasons for a removal of the binding twine tax are equally sound reasons for the removal of the whole list of tariff duties that weigh upon the farmer.

## Turf Topics.

Darnall Bros., of Flemingsburg, have purchased the 5-year-old horse Nutford by Nutwood, dam Moss Rose, from Whipple & Hindekoper, of Meadville, Pa. The price paid is reported at \$6,000.

A new trotting record for a mile was made at Independence, Iowa, Saturday. Roy Wilkes was sent to beat his record of 2:09, and trotted a mile in 2:08, or half a second better than Maud S.'s record of 2:08.

V. C. Cromwell, the trotting-horse breeder of Lexington, has engaged the services of the driver, Ben Kinney, for the ensuing year. Mr. Kinney has been the successful driver of Nancy Hanks, Viola Medium and the pacer Minnie Cassell.

### "First" Enjoyments.

Repetition is the thief of enjoyment as surely as procrastination is the thief of time. It is with pleasures as with sparkling wines. You can have the flashing globules, the rushing foam, the rare bouquet but once. Cork up your wine for after use, and the next draught from the bottle shall be comparatively flat and tasteless. Take a second nip at any joy the card affords and you will find it less exhilarating than the first. Novelty is the spice of life. No secondary sensations are like the primaries, and habit, in the end, stales every luxury.

Middle aged reader, do you remember the pride with which you wore your first watch? It may have been a cheap affair always at odds with chronos, and the golden horologe that now ticks sonorously in your pocket may be a patent lever richly jeweled. But what a contrast between the indifference with which you draw forth the costly watch of your maturity and the subdued exultation with which a dozen times an hour you paraded the valueless trinket of your hobble-de-hoy-hood.—New York Ledger.

### A Well Equipped School.

It is stated that the most complete work shops of their class in the country are to be found at the Rose Polytechnic school at Terre Haute, Ind. The combination of theory and practice is carried out with singular felicity and effectiveness. In the course in mechanical engineering particular attention is paid to shop practice and actual construction, the students being required to work in the shops as well as in the drawing rooms and lecture rooms. Over \$40,000 was expended in fitting up the shops and supplying them with tools.—New York Commercial Advertiser.

### Paired with Another Christian.

When Harrison, the boy preacher, was converting a thousand people here Justice Luke Walpole was among those who occasionally attended. One evening he went with Ed Buskirk. Seeing his calm face, one of the workers walked up to the Lind justice and remarked: "Can't I persuade you to stand up and be counted for Jesus?"

"I'm paired with Buskirk here," was the reply the astonished worker received. But not to be abashed, he followed up with the question, "Are you a Christian?"

Turning his face with its quaint expression toward the interrogator, Walpole responded with, "Do I look like a Jew?" Indianapolis News.

### Big Frog's Legs.

Upon a cake of ice in Washington market there lay one morning a pair of frog's legs which weighed half a pound. The big "jug-o'-rum" who once owned these prime saddles was captured in Salem, N. J., with a piece of red flannel on a hook. The owner of the stand said that he had sold a pair of frog's legs not long since the weighed one pound.

## Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. J. James Wood, druggist.

## FLEXIBLE, DAINTY, HEALTHFUL.

# Cork Sole Turned Shoes

Are as flexible and dainty as the finest turn, and are the easiest walking Shoe made, the cork acting as a cushion to the foot. The cork being secured in a pocket, thus forming a part of the Shoe, it is impossible for it to work loose or break up. They are also the most healthful Shoe, as CORK IS A NON-CONDUCTOR OF HEAT AND MOISTURE. It prevents the warmth of the bottom of the foot from radiating and escaping in cold weather, and in warm weather it prevents the heat from the pavements from penetrating the foot.

**LADIES** needn't fear cold, hot, damp or rough walks. They are as flexible and dainty a Shoe as the lightest turned Shoe made. Come and see them; they are a thing of beauty and comfort. Come and see, also, the largest retail stock of Boots and Shoes in the State. Selling at 25 per cent. less than anybody else sells them.

## MINER'S MAXIMS

There's nothing wonderful in

Selling good shoes at a high price;

Anybody can do that.

The wonder is, where good shoes are sold

At low prices.

That's MINER'S specialty.

Now, what in the world would we be advertising for, if all we had to offer was good shoes at an extra price? You've heard about the crazy man on the tower? He grabbed a stranger and said: "Let's jump down and make ourselves famous." "Pooh!" said the ready-witted stranger, "any man could jump down; let's go down and jump up."

We're not crazy.

Not crazy enough, at least, to think that you'd jump at an offer of shoes from us, when you could do just as well elsewhere. We would not expect to win your trade by selling good shoes at a big price, and we wouldn't waste money advertising that fact. Our specialty is a GOOD shoe at a LOW price.

That's where we stand alone.

The fact we want to "ding" into everybody's mind is that good shoes at MINER'S cost no more than poor shoes, such as MINER don't keep—don't keep them because they won't spoil the record:

58 YEARS SELLING GOOD SHOES.

Doings of the Labor Congress at Liverpool.

### THE EIGHT HOUR MOVEMENT.

Several Resolutions Reported and Acted On—Financial Aid to Be Extended to the Striking Australian Dockmen. Other Cable Items.

LIVERPOOL, Sept. 3.—At the session of the trade unions' congress yesterday Mr. Watkin, president of the congress, delivered an address, in which he said he hoped the results of the congress would encourage a great labor revival. Never before in the history of trades unionism had there been such remarkable developments as had recently occurred. The time had undoubtedly arrived to energetically try to secure the working day of eight hours. He did not fear that an eight-hour day would injure British trade.

He did not think that a bill providing for such a working day should be forced through the house of commons immediately irrespective of the wishes and desires of the industries affected, but there was no reason why an eight-hour day should not be conceded immediately to those occupations which unmistakably wanted it. He advocated direct representation of labor in parliament, state control of the railways, and a solution of the land question by nationalization.

A resolution was offered by one of the delegates censuring the committee appointed by the last congress for its failure to draft a bill for presentation to the house of commons providing for a legal working day of eight hours, as it had been instructed to do by the congress. The resolution occasioned a stormy debate. A number of speakers warmly favored the adoption of the resolution of censure.

Mr. Henry Broadhurst, a delegate to the congress and member of the house of commons for West Nottingham, defended the action of the committee in not drafting and presenting the bill to the house. The resolution was finally rejected.

A meeting of delegates to the trades union congress was held yesterday evening for the purpose of taking steps to organize a fund for the striking Australian dockmen. Ben Tillett presided. He expressed the belief that the generous assistance given by the Australians to the London dockmen would now be repaid. The dockmen themselves, he said, would probably raise \$75,000. A committee was appointed to solicit subscriptions from the general body of workmen. It is expected that large sums will thus be realized.

### Drowned in a Freshet.

VIENNA, Sept. 3.—The Danube, the Inn, the Adna and the upper Rhine are rising rapidly and the unusual height of the floods threatens great damage. Several persons have been drowned by a freshet at Klosterneuburg, near here.

### Should Be Imitated.

LONDON, Sept. 3.—Blackstone & Company, a large engineering firm of Stamford, has conceded to their employees a reduction in work of one hour daily and an advance of 5 per cent. in their wages.

### Foreign Notes.

The Socialists of Berlin held a grand demonstration Sunday, to celebrate the anniversary of the death of Lassalle. The proceedings were orderly.

The intense heat which now prevails in Russia caused recently heavy destruction by fires, the loss from this cause being estimated at 500,000 roubles.

The extensive grain mills at Cassel, and a number of adjacent dwellings, have been burned. The workmen in the mills narrowly escaped with their lives.

Russia is increasing her garrisons in Poland. The additional troops are in many cases quartered in private or public buildings, owing to lack of room in the regular barracks.

Disastrous fires continue in Hungary. The state forests of Ogradina have been burning for days. Many peasants have lost their dwellings and crops and are destitute.

There is an epidemic of robberies in Berlin. In one case \$10,000 worth of bonds were stolen from an office. The thefts of jewelry from private residences aggregate a large sum. The police are generally censured for failing to prevent the occurrences.

The French army maneuvers opened Sunday in the north of France. Smokeless powder was used in firing. The smoke was nearly invisible. The detonation was as loud as that made by the old kind of powder, and was sharper and harsher.

### Wedded in Writing.

SHELBYVILLE, Ind., Sept. 3.—Cicero Throckmorton and Dora Thurston, both deaf mutes, appeared before Squire T. J. Craycraft and presented a marriage license from the county clerk Monday. A large crowd was assembled, and the ceremony was performed by writing questions and answers. Both are well educated and of good families.

### Stabbed His Daughter.

NEW YORK, Sept. 3.—Andrew McNeill, father of Robert McNeill, murdered by Actor Charles Webster two weeks ago, was yesterday arraigned in the police court on the charge of having stabbed his 18-year-old daughter, Katie, with a butcher-knife, and was held in \$1,500 bail for trial.

### Arm Torn Off.

NEW ALBANY, Ind., Sept. 3.—In a playful wrestle with a fellow workman, James Herrett, an employee of the New Albany Woolen mills, was thrown against the teeth of a wool picker, and his arm was torn from his body. He is thought to be dying.

### Suing for Damages.

SHELBYVILLE, Ind., Sept. 3.—Moses Joseph, a merchant of this place, mislaid \$300 some days ago and intimated that it was stolen by Aetna Richardson. The money was found and Moses is now made defendant in a suit for \$5,000 damages.

## JOURNALISM IN MEXICO.

Old Order of Things Gradually Changing—Editor Duchos Talks.

NEW YORK, Sept. 3.—Adolfo Duchos, one of the editors of El Universal, of City of Mexico, is in this city, and in an interview with a reporter gave an interesting account of affairs at present in the Aztec capital. For five years Mr. Duchos was exiled from Mexico for writing against the government of President Diaz, but matters were straightened out for him finally and he returned to Mexico to resume his profession. During his exile Mr. Duchos founded two Spanish papers in Texas—one at Austin, El Spectador, and the other at Eagle Pass, El Comercio.

"We have endeavored in the conduct of our paper," said Mr. Duchos, "to employ some of the American ideas of journalism. Heretofore news, as you understand it here, had no value among Mexican newspapers. The papers were perfectly content to publish the report of a New York occurrence, no matter how important, a week after it became public. What you call a beat here was unknown with our newspapers and reporters as such had practically no existence. We introduced a direct daily telegraphic service, engaged reporters and did other things of this character and the result has amply justified the experiment.

"But in other things besides journalism a change is being wrought in Mexico. Gambling, for instance, which was formerly licensed, and for which one man held the exclusive privileges in return for a large tax collected by the district government, has been abolished since Dr. Ramon Fernandez, the new governor of the district, has come into power. During the feasts at Tacubaya, Mexico's famous suburban resort, where the biggest gambling establishment used to be, gambling is allowed, but only during these periods. In some things, however, the government is far behind your people here. For instance, the newspapers are not allowed to print the account of a crime before they have the permission of the authorities.

"Recently one of our men worked up a case on the plan of the American reporter on his own account, and when the story was published, next day, he was promptly landed in jail, where he remained a long while. The officials claim that by printing the full story of a crime in advance of the arrest of the culprits, the latter will be enabled to get out of the way. In consequence, a heavy penalty is imposed for a violation of this law.

"It was rumored when I left Mexico that Senator Matias Romero, Mexico's minister at Washington, who is now on leave of absence at home, was to be given the treasury portfolio."

### TRAIN HELD UP.

Rube Burrows' Gang Gets in Its Work on the Louisville and Nashville.

MONTGOMERY, Ala., Sept. 3.—The north bound express train from New Orleans on the Louisville and Nashville railroad was held up over the Big Escambia river near Flomaton last night. Just after the train left Flomaton two masked men got on the engine, covered the engineer and ordered him to hold up over the river. They then forced an entrance into the express car, robbing it of a considerable sum of money, the exact amount not being known.

The two masked men had been joined by others who kept up a continual firing and terrified the crew and passengers while the express car was being robbed. The robbers are supposed to be the Rube Burrows and his gang. After going through the train the thieves made off through the woods. The sheriff of Escambia county with a posse of men and a pack of bloodhounds is in pursuit.

### Election in Vermont.

WHITE RIVER JUNCTION, Vt., Sept. 3.—Fifty towns of 243 gave Page, 8,193; Brightman, 4,582; Allen, 340. The same towns in 1888 gave Dillingham, Republican, 12,334; Shurtleff, Democrat, 4,477; all others, 327. The Republican majority over all, in towns so far heard from, is 3,373, against 7,759 in 1888. If the vote in the remaining towns correspond with that of those heard from, the Republican majority will be the smallest since the institution of biennial elections.

### Youthful White Cappers.

WARSAW, Ind., Sept. 3.—A case of juvenile fiendishness has been discovered in this city. Two lads, Roy Ralston and Arthur Overhulster, aged 16 years each, on Saturday enticed Carl Bolenbaugh, a little boy 6 years old, into a box car on a side-track in the outskirts of the city, and beat him with switches and clubs so unmercifully that the little one's life is despaired of. No reason is assigned other than pure devilishness. The young assailants are in jail.

### Soldier Accidentally Shot.

COLUMBUS, O., Sept. 3.—William Willis, of the United States barracks, was accidentally shot last night and cannot recover.

### Senate Proceedings.

WASHINGTON, Sept. 3.—The senate resumed discussion of the tariff bill, taking up the sugar schedule. Mr. Carlisle gave notice early in the day that he would propose an amendment to strike out the entire sugar bounty paragraphs. Mr. Hale brought up his reciprocity amendment introduced last June and made a long speech in support of it. The discussion, mainly on reciprocity, lasted through the entire day. At 5:30 o'clock a recess was taken until 8 p. m., when the discussion was continued.

### Proceedings of the House.

WASHINGTON, Sept. 3.—The house took up the Breckenridge-Clayton contested election case from Arkansas, but after brief statements by Messrs. Cooper and Wilson the case was laid aside, and Mr. Cannon made a statement of the probable surplus after all appropriations are made for the fiscal year 1891. He estimated a net surplus of \$7,000,000.

Mr. Sayers, for the Democrats, also submitted an estimate in which he produced figures which he claimed would show a net deficiency of \$11,500,000 for 1891. The house adjourned at 5:25 p. m.

TINFIN, O., Sept. 3.—Michael Kirchner fell down an elevator shaft here yesterday. His injuries are regarded fatal.
